## About the Conference

The 7th International EcoSummit Congress - EcoSummit 2024 - will take place at Zhengzhou International Convention and Exhibition Center, Henan, China, 14-19 December 2024.

We are living in the Anthropocene Era when almost 80% of our potentially usable Biogeosphere has been converted by humans, usually without understanding the consequences of our actions, through modification of the structure of its ecosystems and, most importantly, the key ecological processes that developed gradually through the Earth's history as shaped by first by evolution and then ecological succession. Eco-civilization and sustainability can only be assured with an ecological understanding of the complex interactions among environmental, economic, political, and social/cultural dimensions and with careful planning and management grounded in ecological principles.

This conference series was founded in 1996 in Copenhagen, as a forum for scientists, practitioners, and policymakers working across disciplines to solve the integrated environmental, social, and economic problems facing the world today. Since 1996, EcoSummits have occurred around the world (Canada, China, USA and Europe), with EcoSummit 2016 hosting 1400 participants from 87 countries in Montpellier, France and EcoSummit 2023 hosting 700 participants from 59 countries in the Gold Coast, Australia.
